friends at Parker Oil Company

Our New Online Account Portal Is Coming Soon

Save time ... save stamps ... and go green, with our NEW online account portal, coming soon! You'll be able to review all your Parker Oil account information in real time, view your invoices and pay all your Parker Oil bills online.

Parker Oil Assists in Hurricane Relief

At Parker Oil, we help customers in need ... wherever they are! When Hurricane Sandy struck, we rushed to hard-hit New Jersey to deliver generators and much-needed fuel to fueling stations.

*Many thanks to our hard-working
and dedicated team!*

Get Your Heating System Tune-up Now

We're still taking appointments for heating system tune-ups, but the **slots are filling up fast**, so we encourage you to **call 434-447-3146 or click here to book your appointment now**. If you wait until the very cold weather hits, the demands of the heating season may make it difficult for us to accommodate your request right away.

If you are enrolled in a heating maintenance plan, your tune-up may be included! Call or contact us to find out!

We cannot emphasize enough how important a tune-up is. **Regular tune-ups keep your heating system running at peak efficiency, can cut annual fuel bills by up to 10% and help prevent inconvenient breakdowns.**

You wouldn't get ready for a months-long road trip without making sure your car was in proper shape ... **why neglect your boiler, furnace or heat pump before it runs for 2,000 hours during a typical heating season?** Be proactive, and tune up today.

Safety First!

Here at Parker Oil Company, we take the utmost care to provide you with the comfort you need.

Parker Oil Company held its annual Wellness & Safety Banquet on Wednesday, October 17th at the Church of the Good Shepherd Social Hall in South Hill. The evening started with a health fair for all the employees in attendance. The health fair was staffed with volunteers from Community Memorial Hospital, Community Memorial Hospital Health and Wellness, and Doctors Vision Center, all of South Hill. The banquet began with dinner prepared by Kahill's Restaurant of South Hill.

C.W. Roberts, Safety Director for Parker Oil Company, began the evening by introducing Debbie Newman and Belinda Wells from Community Memorial Health Center, who spoke on the importance of living a healthy lifestyle and the importance of being honest and forthcoming with your doctors during visits. Afterwards, Charlie Parker, President of Parker Oil Company, thanked everyone for attending and hoped for an enjoyable evening for all. Afterwards, Safe Driving Awards were presented to employees, with awards being given for 5 years all the way up to 55 years of safe driving.

Tips for When the Mercury Dips

- **Get your heating system tuned up annually.** See above for details.
- **Install a programmable thermostat** and set it to a lower temperature at night and when you're not home.
- **Get a humidifier** Moisture air feels warmer, so you can lower your thermostat.
- **Change your furnace filter monthly** during the heating season.

Call us today for more great conservation tips!
